Teleco's shows go on

Teleco, the manufacturer of equipment for the reception of terrestrial and satellite TV signals, TV sets, navigation devices, camera systems, multimedia system and photovoltaic modules, has confirmed it will be exhibiting at the most important European trade fairs in the RV sector in Germany, France, Italy, UK and the Netherlands in 2021.

Even in 2020, despite the pandemic, Teleco still exhibited at trade fairs in Düsseldorf (DE), Parma (IT) and Bern (CH) as it was keen to meet its customers and RV enthusiasts.

"Shows, for Teleco, are an important moment for meeting both end customers and B2B customers, with whom we have been collaborating successfully for many years," says Vittorio Simioli, co-owner of Teleco Group.

"We are aware that there is still some uncertainty due to the pandemic, however we have already managed potential problems of crowding and social distancing at the largest and most important trade fairs for our business. Everything went well at the shows we attended last year thanks to efficient organizational protocols so that the risk of contagion has always been truly minimized. Thanks to the collaboration among organizations, exhibitors and visitors it is possible to experience a safe and rewarding time at every European show in the caravanning world," added Vittorio Simioli.

Laika Ecovip motorhome wins Red Dot design award

A Laika Ecovip motorhome has won the prestigious "Red Dot" award 2021 in the "Product design - Motorhomes and Caravans" category.
